GOLD VERSUS SILVER.

The Conclusion of a Suit to Determine the Value of a Mexican Silver Bollar.

The suit of Hadden and others against E. A. Merritt, Collector of Customs, which involved the question as to the value of foreign dismissed by Judge Shipman, sitting in the United States Circuit Court, resterday. The case was regarded as a test case. Judge Shipman, in deciding in favor of the Government, takes the ground that there can be no inquiry into the method pursued by Director of the Mint Burchard in determining the value of the Mexican silver dollar, inasmuch as John Sherman has proclaimed the value estimated by the director to be the value for the purposes of collecting customs duties. The mint director, in this case, compared the Mexican silver dollar, as pure silver, with the American silver dollar, as pure silver, with the American silver dollar, as pure the value as one dollar and one and five-tenths cents. Importers claimed that the value of the pure silver in the Mexican dollar should be estimated by comparison with the American gold dollar, in which case the value of the Mexican dollar would be ascertained to be 84 cents.
